Funtrak Scarab

Funtrak Scarab

Product Information

Each vehicle is fully guaranteed for six months against defective parts or construction. The engines are covered by the engine manufacturer's own warranties.

Each Funtrak Scarab is designed to be serviced each morning to run continuously for the rest of the day. Routine servicing is very simple while the vehicle can be dismantled into its major component parts for storage/container transit. Spare parts are readily available from our online store. The road wheels use self-lubricating bearings which are designed to be used routinely in off-road conditions.

Genuine one person tracked vehicle (that's right, "tank track") Can be made road legal. See Funtrak Ltd for details of mechanical and documentary requirements.

On private land, you can do as you like, but do take CARE!!

**What
Would
You Do
With
This
land?**

4 x Tanks = £80 per hour

4 x Tanks = £640 per day

4 x Tanks = £4,480 per week

4 x Tanks = £232,960 per year*

Its just a suggestion

And those all important specifications

- **Fabricated steel chassis with rollover bar**
- **Firewall separates driver's compartment from engine area.**
- **Tracks can be quickly adjusted or replaced**
- **Four-point safety harness.**
- **13 hp petrol engine with auto governor driving twin hydraulic pumps.**
- **12 volt electric start.**
- **Emergency stop button provided for driver.**
- **Each track driven independently by hydraulic motors via cast steel rear sprockets.**
- **22 litre hydraulic tank located behind the firewall.**
- **Driver controls each track with a single lever on each side**
- **Hydraulic motors mean that driver has full control of speed, forward/reverse, skid-steer and stop. Note: Levers are self-centring and the tank is instantly braked to a standstill if levers are released.**

*** The assumption is that each tank is running 8 hours a day non-stop for 7 days a week.**
